

SOWERBY SPORTS VILLAGE
Community Briefing 19
October 2018

Welcome to the fourth Sowerby Sports Village Community Briefing

You can also keep up to date by visiting our Sowerby Sports Village [webpage](http://www.hambleton.gov.uk) at www.hambleton.gov.uk and clicking on the 'find out about major developments' link at the top of the home page.

Latest news

The last two weeks have been spent installing carrier drains around the sport pitches, and installing the sub-base for the fitness trail and cycle tracks.

The annual maintenance of the hedge to the rear of Kings Meadows was completed.

Here is a photo showing a section of the fitness trail.

Coming up...Over the next two to three weeks work will be completed on the carrier drains, the levels will be finished off to prepare the land for the pitches within the perimeter of the fitness track and the area to the rear of the skate park will be regraded (23 – 26 October).

Also for information: contractors for Taylor Wimpey will shortly be starting works to extend the access road to the rear of Aldi to the entrance of the new primary school which is part of the planning conditions of the wider Sowerby Gateway development. As part of this work a temporary access road will be installed so that the Sowerby Sports Village contactors continue to have access to the site.

REMINDER: Residents open evening

The residents open evening is on **Thursday 25 October from 4:30-6:30pm** – at Thirsk School and Sixth Form College main hall – this is drop-in event.

Whilst this is primarily aimed at those who have expressed an interest in one of the allotments, and those whose property backs onto the site, all local residents are welcome. The purpose of the event is to share information regarding the landscaping plans along the perimeter of Kings Meadows, including where trees are to be planted. If you live along the perimeter you can get involved in selecting the type of species.

The Sowerby Environmental Space Project (phase one of the development) is part funded by the European Regional Development Fund with a grant of £643,000 and is due to be completed by the end March 2019.

ContactDon't hesitate to contact us, as some people have been doing, if you have any specific questions or comments.
